

North Canterbury, New Zealand, Nov. 13, M 7.8 earthquake, co-seismic displacement map derived from PALSAR2 ScanSAR data (desc. orbit, 20161018 – 20161115)

InSAR processing Gamma Remote Sensing AG (www.gamma-rs.ch).

Cycle color scales with 20cm (large image) and 100cm (small image) line-of-sight displacement per color cycle are used. Maximum displacement values of several meter (in line-of-sight direction) are observed. SLC data copyright JAXA 2016.
